Thesis Chapter	Publication Title	Status	Nature and % of student contribution	Co-author name(s) Nature and % of Co-authors' contribution	Co-author(s), Monash student Y/N*
2	Hub connectivity, neuronal diversity, and gene expression in the *Caenorhabditis elegans* connectome	Published	45% - Concept & design, data analysis, writing of manuscript	1. Fulcher, BD. – 45% 2. Pocock, R. – 3% 3. Fornito, A. – 7%	No (all)
3	Uncovering the transcriptional signatures of hub connectivity in neural networks	In submission	80% - Concept & design, writing of manuscript	1. Fulcher, BD. – 10% 2. Fornito, A. – 10%	N (all)
4	A practical guide to linking brain-wide gene expression and neuroimaging data	Published	80% - Concept & design, data analysis, writing of manuscript	1. Fulcher, BD. – 10% 2. Fornito, A. – 10%	N (all)
5	Genetic markers of hub connectivity in the human brain	In preparation	80% - Concept & design, data analysis, writing of manuscript	1. Oldham, S. – 7% 2. Fulcher, BD. – 5% 3. Bellgrove M. – 3% 4. Fornito, A. – 5%	Yes (Oldham S) No to all others
